As our customers, you can leverage our years of wide-ranging experience in providing access control, video surveillance, perimeter detection and protection, and intrusion alarm solutions, along with a comprehensive range of other security related products and services.

Ensec Solutions Hong Kong Limited is a Hong Kong Based Company Specializing in security system integration. We are Geographically focused to offer excellent services to customers in Hong Kong and Macau.

Your Topnotch Provider of Integrated Security & IT Solutions

Beginning with consultation and planning, and extending to project management and technology selection, engineering, design, system integration, installation, technical service, training, maintenance and support, we provide one-stop solutions for all the security need to have peace of mind.

Ensec Solutions' expertise in security project management can effectively reduce system switch-over down time. Our customers can always expect the best solutions and services at the most affordable rates as we are committed to total customer satisfaction.

Our Service Cycle

Up-to-date, prudent security measures are essential as they can prevent financial losses, business downtime, and stress and anxiety for organizations. Organizations protected by effective security solutions can perform at their best, achieve compliance and mitigate security risks.

Ensec Solutions provides flexible turnkey solutions to meet customer's diverse and specific needs. Our turnkey solutions cover, but are not limited to, the following components:

Ensec offers complete security and IT solutions for customers with high demands for efficient security solutions, who are in financial, retail, transport and health care sectors.

Ensec's offering is supported by forefront technology, providing customized solutions in access control, video surveillance, intrusion prevention and IT service and maintenance.

Ensec adopts best practices in all its services and operations, aligned with guidelines and instructions of relevant authorities and organizations to ensure top quality service.

Our Security Solutions

Access Control enables you to control and monitor who enters and exits your premises.

Generate data reports including time attendance and attendance records for your employees.

Video surveillance allows you to deter crime and increase security at your premises.

Ensure a safe working environment for you staff.

Access Control

Access control provides security by flexibly controlling who is permitted to enter a location and when. Ensec's commitment to customer benefits has helped us to build a reputation as a premier provider of high quality access control solutions.

We have completed a vast array of projects for large-scale facilities in Hong Kong and Macau. We are well experienced in system design and installation.

From a single door to hundreds of doors across multiple sites, we can customize a solution to meet the customer's standards, needs and budget. We are capable of supplying and install different brands of access control systems available on the market.

We can provide consultation as to what best suits customers, objectively considering specific customer parameters.

Video Surveillance

We know what works and what doesn't. Ensec video surveillance systems protect your business investments including property, plant and equipment from theft and damage, at the same time ensure a safe working environment for your staff.

We are geographically focused on Hong Kong and Macau so we understand thoroughly the unique environments in these two regions and the specific needs of our customers.

Our consultants and technicians have an extensive system technology background, which allows us to access customer needs accurately.

We then recommend, supply, install and follow up on the best product integration that offers reliability, value, quality and user-friendliness.
